Feedback Agreement

Feedback Agreement

Feedback

The Decentralized Identity Foundation ("Project") is developing the processes, specs, and implementations of various technical and procedural elements of an interoperable, decentralized identity platform (the "Materials"). Project would like to receive input, suggestions and other feedback ("Feedback") on the Materials. By signing below, you (on behalf of yourself if you are an individual and your company if you are providing Feedback on behalf of the company) grant the Project under all applicable intellectual property rights owned or controlled by you or your company a non-exclusive, non-transferable, worldwide, perpetual, irrevocable, royalty-free license to use, disclose, copy, publish, license, modify, sublicense or otherwise distribute and exploit Feedback you provide for the purpose of developing and promoting the Materials and in connection with any product that implements and complies with the Materials. You warrant to the best of your knowledge that you have rights to provide this Feedback, and if you are providing Feedback on behalf of a company, you warrant that you have the rights to provide Feedback on behalf of your company. You also acknowledge that the Project is not required to incorporate your Feedback into any version of the Materials. You further agree that you and your company will not disclose it or distribute drafts of the non-public Project Materials to third parties. Unless the parties agree otherwise or the Project Materials are made publicly available by the Project, this obligation of non-disclosure will expire five (5) years from the date the material was disclosed to you.

Source Code

Any source code you provide to the Project is subject to the Developer Certificate of Origin version 1.1, available at http://developercertificate.org/ and the Apache 2.0, available at http://www.apache.org/licenses/LICENSE- 2.0.html.
